With more than 110 easy-to-use, reproducible worksheets, this series is ideal for enrichment or for use as reinforcement. The instant activities in these books are perfect for use at school or as homework. They feature basic core subject areas including language arts, math, science, and social studies. Help your students develop the writing skills they need to succeed with this timely resource! This book provides teachers with standards-based strategies to help students demonstrate their learning of fiction-related concepts as they navigate the complexities of literary works. This book offers detailed strategies

for using graphic organizers, developing vocabulary, journal writing, taking notes, applying knowledge, and assessing student writing. The strategies also help prepare students for success in college and careers. Classroom examples and differentiation suggestions with every strategy provide clear models for success! Accompanying a pupil's book focusing on Britain between 1750 and 1900, this teacher's resource guide is part of a series which provides resources that meet the requirements of the revised Key Stage 3 History curriculum. The guide contains additional banks of questions for pupils of different ability-levels, photocopiable worksheets for developing topics in the pupil's book and providing self-contained resources for homework, information on the provenance and background of all sources, and detailed teacher's notes. This unique Library gives teachers and specialists a stimulating, systematic way to develop positive social behaviors in students of all abilities, grades 4-12. Included are over 125 tested lessons and reproducible worksheets in two separately printed, self-contained volumes, each tailored to the developmental needs of students at a particular grade level, 4-6 or 7-12. For easy use, the lessons in each volume follow a uniform format, including titles, behavioral

objective, and simple 8-step lesson plan. The lesson activities and worksheets are based on real-life situations and help build students' self-esteem, self-control, and respect for the rights of others. The 14 lessons in this module introduce students to the parts of a plant, types of plants, plant life-cycles, the needs of plants for survival, and how plants are affected by seasonal changes and human behaviour. Also included: materials lists activity descriptions questioning techniques activity centre and extension ideas assessment suggestions activity sheets and visuals The module offers a detailed introduction to the Hands-On Science program (guiding principles, implementation guidelines, an overview of the skills that young students use and develop during scientific inquiry), a list of children's books and websites related to the science topics introduced, and a classroom assessment plan with record-keeping templates. The 12 lessons in this module introduce students to the systems of the human body including the digestive, urinary, respiratory, circulatory, skeletal, muscular, nervous, and integumentary systems. Students explore how the human body fights illness and how to maintain a healthy body through good nutrition and health practices. Also included: materials lists activity descriptions questioning

Designed to support existing content-area lessons with standards-based, interactive activities, this resource is teacher-friendly, based on research, and easy to use. The 128-page book includes 30 easy-to-follow activities and a Resource CD with templates and examples. This resource is correlated to the Common Core State Standards, is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills, and supports core concepts of STEM instruction. 128pp. + CD "

Achieving Aboriginal Student Success presents goals and strategies needed to support Aboriginal learners in the classroom. This book is for all teachers of kindergarten to grade 8 who have Aboriginal students in their classrooms or who are looking for ways to infuse an Aboriginal worldview into their curriculum. Although the author's primary focus is the needs of Aboriginal students, the

ideas are best practices that can be applied in classroom-management techniques, assessment tools, suggestions for connecting to the Aboriginal community, and much more! The strategies and information in this resource are about building bridges between cultures that foster respect, appreciation, and understanding."--Page [4] of cover. Ancient history is fascinating, but it can be difficult to find material that teaches it from a Christian perspective. Even harder is finding a history curriculum that captivates students. But Angela O'Dell's newly revised *The World's Story 1 - The Ancients* does both! Students will learn all about the ancient civilizations of the Middle East, Europe, Africa, Asia, and the Americas from a strong Biblical perspective. Focuses on History and interweaves a Christian perspective throughout. Features an engaging historical narrative. First volume in a three-book world history series for upper elementary and junior high students. The text covers Biblical history, also educating students about civilizations mentioned in the Bible, including ancient Egypt, ancient Israel, ancient Babylon, ancient Persia, ancient Greece, and ancient Rome, up to the development of the early Church. It also discusses other ancient civilizations from

around the world. The Hands-On English Language Learning program is a resource for classroom teachers, specialist teachers working with English-language learners, and other educational professionals who support these students. To assist your students in developing language skills, this resource includes: specific curricular connections for each lesson to identify links to subject-area themes in language arts, mathematics, science, social studies, health, physical education, and the arts integrated class activities to promote learning in context for all students in the classroom suggested activities focus on curricular topics in all subject areas, while supporting English language learners relevant topics such as the classroom and school, clothing, food, hobbies and interests, plants and animals of Canada, the world, and the environment age-appropriate, high-interest learning activities that foster the development of essential English language vocabulary and skills in listening, speaking, reading, writing, viewing, and representing activities (in keeping with the philosophy of all Portage & Main Press Hands-On programs) that are student-centred and focus on real-life, hands-on experiences Please note: All blackline masters are included on a CD. Incite 4th grade students enthusiasm to learn using

technology in the curriculum! You'll enhance learning and encourage high-order thinking by incorporating a technology project for every week of the school year. Students will develop key technology skills in word processing, spreadsheets, multimedia presentations, and using the Internet while you teach regular classroom content. Lessons are divided among content areas, and the flexible projects are great for computer centers, labs, or one-computer classrooms. The easy-to-follow teacher instructions and step-by-step student directions make this resource a hit in the classroom. The included Teacher Resource CD contains sample projects, templates, and assessment rubrics. 160pp. Ideal for preservice mathematics teachers who are taking methods courses or are student teaching, this research-based, activity-oriented guide offers a highly effective framework for teacher reflection and self-assessment. Highlighting inquiry-based, learner-centered teaching and grounded in a cognitive perspective, *Becoming a Reflective Teacher of Mathematics, Third Edition* features: Detailed observation instruments for observing other teachers
Reflective activities that provide a structure for beginning teachers to think about their teaching
