**You Turn** May 15 2022 If you're thinking about buying this book, it's probably because it feels like something's missing in your career. Guess what? It could be YOU. Whether you're living for the weekends or counting the minutes until 5 pm every day, life is too short to wish it away because you feel stuck in your job. The good news is that you have the power to stop living on autopilot and turn your career around. "Follow your passion," "find your purpose," and "do what you love" have joined the parade of bland directives

that aren't doing much to actually help you figure out what you're meant to do with your career. Instead, they only create more confusion. If all we had to do is "follow our bliss" . . . why aren't we blissful yet? The truth is, the best career is not one where you only do what you love, but one where you honor who you are. In *You Turn*, counterterrorism professional turned career coach Ashley Stahl shares the strategies she's used to help thousands ditch their Monday blues, get clarity on what work lights them up, and devise an action plan to create a career they love. This book gives readers access to Stahl's coveted 11-step roadmap that has guided thousands of coaching clients in 31 countries to self-discovery and success. Throughout her process, you'll:

- Discover your Core Skillset. Uncover your gifts and talents to create an intentional career path that's fulfilling and aligned with who you are—and what you're good at.
- Understand your "Inner Money Blueprint." Discover the root of your money mindset, and how to break free of financial limitation.

Trustworthy information about career assessment instruments and their value for career counseling is difficult to obtain. This text contains information and reviews of a wide range of assessment instruments. The principles underlying the decisions to select instruments for review included selecting previously reviewed instrument that have undergone extensive revisions or update, new instruments that appear to have promise of extensive use, instruments that could be used by employers to make hiring or advancement decisions, and instruments with proven utility for persons with disabilities or disadvantages. Fifty-two instruments in forty-nine test reviews comprise the heart of this volume. These are divided into six categories: Comprehensive Aptitude/Achievement and Companion Measures; Interest; Values and Satisfaction; Career Development/Maturity; Personality; and Instruments for Disabled and Disadvantaged Populations. Reviews begin with publisher-provided information, followed by a brief critical review of the instrument's strengths and limitations. Also provided is practical information which potential users can refer to in order to gauge the usefulness of an instrument. (RJM)
