The Last Slave Ship Aug 26 2020 Fifty years after the Atlantic slave trade was outlawed, the Clotilda became the last ship in history to bring enslaved Africans to the United States. The ship was scuttled and burned on arrival to hide evidence of the crime, allowing the wealthy perpetrators to escape prosecution. Despite numerous efforts to find the sunken wreck over the next 160 years, it wasn't found until 2019. Raines, who uncovered one of our nation's most important historical artifacts, recounts the ship's perilous journey, the story of its rediscovery, and its complex legacy. Against all odds, Africatown, the Alabama community founded by the captives of the Clotilda, prospered in the Jim Crow South. Raines tells the epic tale of one community's triumphs over great adversity and a celebration of the power of human curiosity to uncover

the truth about our past and heal its wounds. -- adapted from jacket Young, Black, Rich, and Famous Jan 31 2021 In Young, Black, Rich, and Famous, Todd Boyd chronicles how basketball and hip hop have gone from being reviled by the American mainstream in the 1970s to being embraced and imitated globally today. For young black men, he argues, they represent a new version of the American dream, one embodying the hopes and desires of those excluded from the original version. Shedding light on both perception and reality, Boyd shows that the NBA has been at the forefront of recognizing and incorporating cultural shifts?from the initial image of 1970s basketball players as overpaid black drug addicts, to Michael Jordan?s spectacular rise as a universally admired icon, to the 1990s, when the hip hop aesthetic (for example, Allen Iverson?s cornrows, multiple tattoos, and defiant, in-your-face attitude) appeared on the basketball court. Hip hop lyrics, with their emphasis on ?keepin? it real? and marked by a colossal indifference to mainstream taste, became an equally powerful influence on young black men. These two influences have created a brand-new, brand-name generation that refuses to assimilate but is nonetheless an important part of mainstream American culture. This Bison Books edition includes a new introduction by the author.

On the Shoulders of Giants Nov 09 2021 From 1920 to 1940, the Harlem Renaissance produced a bright beacon of light that paved the way for African-Americans all over the country. The unapologetic writings of W. E. B. Du Bois and Marcus Garvey, the fervent fiction and poetry of Zora Neale Hurston and Langston Hughes, the groundbreaking art of Aaron Douglas and William H. Johnson, and the triumphant music of Duke Ellington and Louis Armstrong gave voice and expression to the thoughts

and emotions that Jim Crow segregation laws had long sought to stifle. In *On the Shoulders of Giants*, indomitable basketball star and bestselling author and historian Kareem Abdul-Jabbar invites the reader on an extraordinarily personal journey back to his birthplace, through one of the greatest political, cultural, literary, and artistic movements in our history, revealing the tremendous impact the Harlem Renaissance had on both American culture and his own life. Beginning with the rise of the Harlem Rens as pioneers of professional basketball, Kareem traces the many streams of historical influence that converged to create the man he is today -- the NBA's all-time leading scorer and a veritable African-American icon. Travel deep into the soul of the Renaissance -- to the night clubs, restaurants, basketball games, and fabulous parties that have made footprints in Harlem's history. Meet the athletes, jazz musicians, comedians, actors, politicians, entrepreneurs, and writers who not only inspired Kareem's rise to greatness but an entire nation's. Kareem Abdul-Jabbar was born in the midst of a cultural reawakening, carried on the shoulders of athletes trying to prove there was a lot more at stake than a ball game, men and women who made music that could break your heart, and writers and intellectuals who gave voice to not just the ideals of a movement but the raw emotions. Kareem tells what it took to get these revolutionaries to Harlem and how they changed the world. A world that is still riding on the shoulders of giants.

Loving Sports When They Don't Love You Back Apr 14 2022

Triumphant wins, gut-wrenching losses, last-second shots, underdogs, competition, and loyalty—it's fun to be a fan. But when a football player takes a hit to the head after yet another study has warned of the dangers of CTE, or when a team whose mascot was born in an era of racism and bigotry takes the field, or when a relief pitcher accused of domestic violence saves the game, how is one to cheer? Welcome to the club for sports fans who care too much. In *Loving Sports When They Don't Love You Back*, acclaimed sports writers Jessica Luther and Kavitha A. Davidson tackle the most pressing issues in sports, why they matter, and how we can do better. For the authors, "sticking to sports" is not an option—not when our taxes are paying for the stadiums, and college

athletes aren't getting paid at all. But simply quitting a favorite team won't change corrupt and deplorable practices, and the root causes of many of these problems are endemic in our wider society. An essential read for modern fans, *Loving Sports When They Don't Love You Back* challenges the status quo and explores how we might begin to reconcile our conscience with our fandom.

Third and a Mile Dec 22 2022 Chronicling the heroic struggle to topple the sports world's staunchest racial barrier, this volume is filled with personal anecdotes and firsthand recollections from such NFL greats as Warren Moon, Doug Williams, Donovan McNabb, and Steve McNair.

Burn Rate Mar 21 2020 In this "gripping" (TechCrunch), "eye-opening" (Gayle King, Oprah Daily) memoir of mental illness and entrepreneurship, the co-founder of the menswear startup Bonobos opens up about the struggle with bipolar disorder that nearly cost him everything. "Arrestingly candid . . . the most powerful book I've read on manic depression since *An Unquiet Mind*."—Adam Grant, #1 New York Times bestselling author of *Think Again* and host of *WorkLife ONE OF THE MOST ANTICIPATED BOOKS OF 2022*—Forbes At twenty-eight, fresh from Stanford's MBA program and steeped in the move-fast-and-break-things ethos of Silicon Valley, Andy Dunn was on top of the world. He was building a new kind of startup—a digitally native, direct-to-consumer brand—out of his Manhattan apartment. Bonobos was a new-school approach to selling an old-school product: men's pants. Against all odds, business was booming. Hustling to scale the fledgling venture, Dunn raised tens of millions of dollars while boundaries between work and life evaporated. As he struggled to keep the startup afloat, Dunn was haunted by a ghost: a diagnosis of bipolar disorder he received after a frightening manic episode in college, one that had punctured the idyllic veneer of his midwestern upbringing. He had understood his diagnosis as an unspeakable shame that—according to the taciturn codes of his fraternity, the business world, and even his family—should be locked away. As Dunn's business began to take off, however, some of the very traits that powered his success as a founder—relentless drive, confidence bordering on hubris, and ambition verging on delusion—were now

threatening to undo him. A collision course was set in motion, and it would culminate in a night of mayhem—one poised to unravel all that he had built. *Burn Rate* is an unconventional entrepreneurial memoir, a parable for the twenty-first-century economy, and a revelatory look at the prevalence of mental illness in the startup community. With intimate prose, Andy Dunn fearlessly shines a light on the dark side of success and challenges us all to take part in the deepening conversation around creativity, performance, and disorder.

The New Plantation Jun 04 2021 The *New Plantation* examines the controversial relationship between predominantly White NCAA Division I Institutions (PWI s) and black athletes, utilizing an internal colonial model. It provides a much-needed in-depth analysis to fully comprehend the magnitude of the forces at work that impact black athletes experiences at PWI s. Hawkins provides a conceptual framework for understanding the structural arrangements of PWI s and how they present challenges to Black athletes academic success; yet, challenges some have overcome and gone on to successful careers, while many have succumbed to these prevailing structural arrangements and have not benefited accordingly. The work is a call for academic reform, collective accountability from the communities that bear the burden of nurturing this athletic talent and the institutions that benefit from it, and collective consciousness to the Black male athletes that make of the largest percentage of athletes who generate the most revenue for the NCAA and its member institutions. Its hope is to promote a balanced exchange in the athletic services rendered and the educational services received.

\$40 Million Slaves Jan 23 2023 A critical analysis of African Americans in sports argues that every advance by black athletes has been countered by a setback and that black youngsters who are brought into big-time programs are exploited by the media and team owners.

Invisible Men Mar 01 2021 On Feb. 13, 1920, a group of independent black baseball team owners held a meeting at a YMCA in Kansas City, Missouri. While they couldn't have known at the time that they were about to change the course of American history, it was out of that meeting that the Negro National League was born. The league flourished

throughout the 1920s and beyond, becoming the first successful, organized professional black baseball league in the country. By providing a playing field for African American and Hispanic baseball players to showcase their world-class baseball abilities, it became a force that provided cohesion and a source of pride in black communities. Among them were the legendary pitchers Smokey Joe Williams, whose fastball seemed to "come off a mountain top," Satchel Paige, the ageless wonder who pitched for five decades, and such hitters as Josh Gibson, Buck Leonard, and Oscar Charleston, whose talents as players may have even been surpassed by their total commitment to their profession and hardiness. Leading the leagues were memorable characters like Gus Greenlee of the Pittsburgh Crawfords and Effa Manley of the Newark Eagles. Although their games were ignored by white-owned newspapers and radio stations, black ballplayers and their teams became folk heroes in cities such as Chicago, Kansas City, Pittsburgh, Philadelphia, New York, and Washington DC, where the teams drew large crowds and became major contributors to the local community life, with influence extending far beyond the baseball fields. This memorable narrative, filled with the memories of many surviving Negro League players, pulls the veil off these "invisible men" who were forced into the segregated leagues. What emerges is a glorious chapter in African American history and an often overlooked aspect of our American past.

Forty Million Dollar Slaves Feb 24 2023 A critical analysis of African Americans in sports argues that every advance by black athletes has been countered by a setback and that black youngsters who are brought into big-time programs are exploited by the media and team owners.

Exodus and Emancipation Dec 30 2020 Presenting a new perspective on the saga of the enslavement of the Jewish people and their departure from Egypt, this study compares the Jewish experience with that of African-American slaves in the United States, as well as the latter group's subsequent fight for dignity and equality. This consideration dives deeply into the biblical narrative, using classical and modern commentaries to explore the social, psychological, religious, and philosophical dimensions of the slave experience and mentality. It draws

on slave narratives, published letters, eyewitness accounts, and recorded interviews with former slaves, together with historical, sociological, economic, and political analyses of this era. The book explores the five major needs of every long-term victim and journeys through these five stages with the Israelite and the African-American slaves on their historical path toward physical and psychological freedom. This rich, multi-dimensional collage of parallel and contrasting experiences is designed to enrich readers' understanding of the plight of these two groups.

From Jack Johnson to LeBron James Aug 06 2021 "A collection of essays about the intersection of sports, race, and the media in the 20th century and beyond"--

The Heritage Aug 18 2022 Following in the footsteps of Robeson, Ali, Robinson and others, today's Black athletes re-engage with social issues and the meaning of American patriotism Named a best book of 2018 by Library Journal It used to be that politics and sports were as separate from one another as church and state. The ballfield was an escape from the world's worst problems, top athletes were treated like heroes, and cheering for the home team was as easy and innocent as hot dogs and beer. "No news on the sports page" was a governing principle in newsrooms. That was then. Today, sports arenas have been transformed into staging grounds for American patriotism and the hero worship of law enforcement. Teams wear camouflage jerseys to honor those who serve; police officers throw out first pitches; soldiers surprise their families with homecomings at halftime. Sports and politics are decidedly entwined. But as journalist Howard Bryant reveals, this has always been more complicated for black athletes, who from the start, were committing a political act simply by being on the field. In fact, among all black employees in twentieth-century America, perhaps no other group had more outsized influence and power than ballplayers. The immense social responsibilities that came with the role is part of the black athletic heritage. It is a heritage built by the influence of the superstardom and radical politics of Paul Robeson, Jackie Robinson, Muhammad Ali, Tommie Smith, and John Carlos through the 1960s; undermined by

apolitical, corporate-friendly "transcenders of race," O. J. Simpson, Michael Jordan, and Tiger Woods in the following decades; and reclaimed today by the likes of LeBron James, Colin Kaepernick, and Carmelo Anthony. The Heritage is the story of the rise, fall, and fervent return of the athlete-activist. Through deep research and interviews with some of sports' best-known stars—including Kaepernick, David Ortiz, Charles Barkley, and Chris Webber—as well as members of law enforcement and the military, Bryant details the collision of post-9/11 sports in America and the politically engaged post-Ferguson black athlete.

I Came As a Shadow Apr 02 2021 A NEW YORK TIMES NOTABLE BOOK The long-awaited autobiography from Georgetown University's legendary coach, whose life on and off the basketball court throws America's unresolved struggle with racial justice into sharp relief John Thompson was never just a basketball coach and *I Came As a Shadow* is categorically not just a basketball autobiography. After three decades at the center of race and sports in America, the first Black head coach to win an NCAA championship is ready to make the private public. Chockful of stories and moving beyond mere stats (and what stats! three Final Fours, four times national coach of the year, seven Big East championships, 97 percent graduation rate), Thompson's book drives us through his childhood under Jim Crow segregation to our current moment of racial reckoning. We experience riding shotgun with Celtics icon Red Auerbach, and coaching NBA Hall of Famers like Patrick Ewing and Allen Iverson. How did he inspire the phrase "Hoya Paranoia"? You'll see. And thawing his historically glacial stare, Thompson brings us into his negotiation with a DC drug kingpin in his players' orbit in the 1980s, as well as behind the scenes on the Nike board today. Thompson's mother was a teacher who couldn't teach because she was Black. His father could not read or write, so the only way he could identify different cements at the factory where he worked was to taste them. Their son grew up to be a man with his own life-sized statue in a building that bears his family's name on a campus once kept afloat by the selling of 272 enslaved people. This is a great American story, and John

Thompson's experience sheds light on many of the issues roiling our nation. In these pages, he proves himself to be the elder statesman college basketball and the country need to hear from now. *I Came As A Shadow* is not a swan song, but a bullhorn blast from one of America's most prominent sons.

The Violin Conspiracy Nov 16 2019 GOOD MORNING AMERICA BOOK CLUB PICK! • Ray McMillian is a Black classical musician on the rise—undeterred by the pressure and prejudice of the classical music world—when a shocking theft sends him on a desperate quest to recover his great-great-grandfather's heirloom violin on the eve of the most prestigious musical competition in the world. "I loved *The Violin Conspiracy* for exactly the same reasons I loved *The Queen's Gambit*: a surprising, beautifully rendered underdog hero I cared about deeply and a fascinating, cutthroat world I knew nothing about—in this case, classical music." —Chris Bohjalian, #1 New York Times bestselling author of *The Flight Attendant* and *Hour of the Witch* Growing up Black in rural North Carolina, Ray McMillian's life is already mapped out. But Ray has a gift and a dream—he's determined to become a world-class professional violinist, and nothing will stand in his way. Not his mother, who wants him to stop making such a racket; not the fact that he can't afford a violin suitable to his talents; not even the racism inherent in the world of classical music. When he discovers that his beat-up, family fiddle is actually a priceless Stradivarius, all his dreams suddenly seem within reach, and together, Ray and his violin take the world by storm. But on the eve of the renowned and cutthroat Tchaikovsky Competition—the Olympics of classical music—the violin is stolen, a ransom note for five million dollars left in its place. Without it, Ray feels like he's lost a piece of himself. As the competition approaches, Ray must not only reclaim his precious violin, but prove to himself—and the world—that no matter the outcome, there has always been a truly great musician within him.

A Million Dirty Secrets Sep 26 2020 When a medical condition threatens to tear apart Lanie Talbot's family, she makes the ultimate sacrifice. With no time and no other option, Lanie puts herself up for sale at an

underground, high-end establishment where women are auctioned off to influential, wealthy men with more money than sense. Enter Noah Crawford: millionaire business mogul and Chicago's most eligible bachelor. But Noah's distrust in relationships has led him to make a very desperate decision of his own - purchasing a woman to satisfy his every desire. No strings attached, no heartbreak, and no way anyone will ever know.

Study Guide Oct 28 2020 SuperSummary, a modern alternative to SparkNotes and CliffsNotes, offers high-quality study guides for challenging works of literature. This 46-page guide for "Forty Million Dollar Slaves" by William C. Rhoden includes detailed chapter summaries and analysis covering 11 chapters, as well as several more in-depth sections of expert-written literary analysis. Featured content includes commentary on major characters, 25 important quotes, essay topics, and key themes like The Historical Exploitation of African American Athletes and Black Style as a Reaction and a Contribution to American Sports. Complicity Dec 18 2019 A startling and superbly researched book demythologizing the North's role in American slavery "The hardest question is what to do when human rights give way to profits. . . . Complicity is a story of the skeletons that remain in this nation's closet."—San Francisco Chronicle The North's profit from—indeed, dependence on—slavery has mostly been a shameful and well-kept secret . . . until now. Complicity reveals the cruel truth about the lucrative Triangle Trade of molasses, rum, and slaves that linked the North to the West Indies and Africa. It also discloses the reality of Northern empires built on tainted profits—run, in some cases, by abolitionists—and exposes the thousand-acre plantations that existed in towns such as Salem, Connecticut. Here, too, are eye-opening accounts of the individuals who profited directly from slavery far from the Mason-Dixon line. Culled from long-ignored documents and reports—and bolstered by rarely seen photos, publications, maps, and period drawings—Complicity is a fascinating and sobering work that actually does what so many books pretend to do: shed light on America's past.

Love Cemetery Jun 23 2020 One woman's struggle to restore an old slave

cemetery uncovers centuries-old racism When China Galland visited her childhood hometown in east Texas, she learned of an unmarked cemetery for slaves-Love Cemetery. Her ensuing quest to restore and reclaim the cemetery unearths racial wounds that have never completely healed. Research becomes activism as she organizes a grassroots, interracial committee, made up of local religious leaders and lay people, to work on restoring community access to the cemetery. The author also presents material from the time of slavery and the Reconstruction Era, including stories of “landtakings” (the theft of land from African Americans), and forms of slavery that continued well into the twentieth century.

Ultimately *Keepers of Love* delivers a message of tremendous hope as members of both black and white communities come together to right an historical wrong, and in so doing, discover each other’s common dignity. “Galland captures the struggle to reclaim one small cemetery in Texas with such engrossing drama and personal detail that the story becomes something larger still—a universal struggle to reclaim the ground of Deep Compassion that lies untended in the human heart.”—Sue Monk Kidd

Breaking the Line Oct 20 2022 Bringing to life the historic battle for the 1967 black-college championship between Grambling College and Florida A&M, this exciting book tells the story of two legendary coaches and two talented quarterbacks, who, together, broke the color line, revolutionizing college sports and transforming the NFL. (This book was previously featured in Forecast.)

The Invention of Wings Oct 16 2019 From the celebrated author of *The Secret Life of Bees* and the forthcoming novel *The Book of Longings*, a novel about two unforgettable American women. Writing at the height of her narrative and imaginative gifts, Sue Monk Kidd presents a masterpiece of hope, daring, the quest for freedom, and the desire to have a voice in the world. Hetty “Handful” Grimke, an urban slave in early nineteenth century Charleston, yearns for life beyond the suffocating walls that enclose her within the wealthy Grimke household. The Grimke’s daughter, Sarah, has known from an early age she is meant to do something large in the world, but she is hemmed in by the limits imposed on women. Kidd’s sweeping novel is set in motion on Sarah’s

eleventh birthday, when she is given ownership of ten year old Handful, who is to be her handmaid. We follow their remarkable journeys over the next thirty five years, as both strive for a life of their own, dramatically shaping each other’s destinies and forming a complex relationship marked by guilt, defiance, estrangement and the uneasy ways of love. As the stories build to a riveting climax, Handful will endure loss and sorrow, finding courage and a sense of self in the process. Sarah will experience crushed hopes, betrayal, unrequited love, and ostracism before leaving Charleston to find her place alongside her fearless younger sister, Angelina, as one of the early pioneers in the abolition and women’s rights movements. Inspired by the historical figure of Sarah Grimke, Kidd goes beyond the record to flesh out the rich interior lives of all of her characters, both real and invented, including Handful’s cunning mother, Charlotte, who courts danger in her search for something better. This exquisitely written novel is a triumph of storytelling that looks with unswerving eyes at a devastating wound in American history, through women whose struggles for liberation, empowerment, and expression will leave no reader unmoved.

Where Were You? Apr 21 2020 My boots-on-the-ground work to fight human trafficking throughout Asia. There are more slaves in the world today than any other time in history. Enter the world of human trafficking and explore what we can do together to end this global crime. *Where Were You?: A Profile of Modern Slavery* by Matthew Friedman provides an up-to-date overview of human trafficking, a largely ignored present-day evil, and recounts true stories of enslavement in Asia today. Former United Nations and USAID expert Matthew Friedman obtained in-depth first-hand knowledge with boots-on-the-ground work over 30 years throughout Asia. Human trafficking exists in nearly every nation on earth and Friedman has personally interviewed hundreds of freed slaves and imprisoned traffickers throughout South and Southeast Asia. The modern slave trade operates in brothels, fisheries, clothing and chocolate industries, as well as a myriad of other manufacturing jobs and is a billion dollar business that continues to grow unchecked. Even with the collective response of governments, the UN and civil society partners,

less than 0.2 percent of the victims are assisted.

South to Freedom Nov 28 2020 A brilliant and surprising account of the coming of the American Civil War, showing the crucial role of slaves who escaped to Mexico. The Underground Railroad to the North promised salvation to many American slaves before the Civil War. But thousands of people in the south-central United States escaped slavery not by heading north but by crossing the southern border into Mexico, where slavery was abolished in 1837. In *South to Freedom*, historian Alice L. Baumgartner tells the story of why Mexico abolished slavery and how its increasingly radical antislavery policies fueled the sectional crisis in the United States. Southerners hoped that annexing Texas and invading Mexico in the 1840s would stop runaways and secure slavery's future. Instead, the seizure of Alta California and Nuevo México upset the delicate political balance between free and slave states. This is a revelatory and essential new perspective on antebellum America and the causes of the Civil War.

[Quilt of Souls](#) Jan 19 2020 When four year old Phyllis Lawson is sent to live with her grandmother in Alabama, she has no idea what to expect. What she finds is inspiration the catalyst for everything good to come. She needed a miracle, and that miracle took the form of a tattered old quilt--a family heirloom stitched together from the clothes of her grandmothers loved ones, telling the tragic stories of their lives and deaths. Born in 1883, Grandma Lula lived to be 103 years old and overcame the ugliness of racism through creating beautiful quilts. She quilted as a way to bring healing into the world, and working on this quilt created something even more powerful: an impenetrable bond between Grandmother and Granddaughter--From author's website.

The Revolt of the Black Athlete Mar 13 2022 Harry Edwards discusses what he considers to be the exploitation and suffering of the American black athlete

Body Politic Nov 21 2022 In *Body Politic*, David Shields looks at contemporary America and its mythology through the lens of professional and college sports. The result is an unusually insightful and provocative book about an empire in denial. Shields relentlessly examines the way we

tell our sports stories (both fictional and nonfictional), considers the kinds of athletes we choose as heroes, and delineates the lessons and values we glean from sports. He explores the intricate and telling relationships between players and coaches, black and white players, immigrant and native players, male and female players, players and broadcasters, players and fans, and players and advertisers. In the process, he shows us the stories we Americans tell ourselves about the kind of people we believe ourselves to be.

The Devil's Half Acre Feb 18 2020 The inspiring true story of an enslaved woman who liberated an infamous slave jail and transformed it into one of the nation's first HBCUs In *The Devil's Half Acre*, New York Times bestselling author Kristen Green draws on years of research to tell the extraordinary and little-known story of young Mary Lumpkin, an enslaved woman who blazed a path of liberation for thousands. She was forced to have the children of a brutal slave trader and live on the premises of his slave jail, known as the "Devil's Half Acre." When she inherited the jail after the death of her slaveholder, she transformed it into "God's Half Acre," a school where Black men could fulfill their dreams. It still exists today as Virginia Union University, one of America's first Historically Black Colleges and Universities. A sweeping narrative of a life in the margins of the American slave trade, *The Devil's Half Acre* brings Mary Lumpkin into the light. This is the story of the resilience of a woman on the path to freedom, her historic contributions, and her enduring legacy.

[Things That Make White People Uncomfortable](#) Sep 19 2022 Michael Bennett is a Super Bowl Champion, a three-time Pro Bowl defensive end, a fearless activist, a feminist, a grassroots philanthropist, an organizer, and a change maker. He's also one of the most scathingly humorous athletes on the planet, and he wants to make you uncomfortable. Bennett adds his unmistakable voice to discussions of racism and police violence, Black athletes and their relationship to powerful institutions like the NCAA and the NFL, the role of protest in history, and the responsibilities of athletes as role models to speak out against injustice. Following in the footsteps of activist-athletes from Muhammad Ali to Colin Kaepernick,

Bennett demonstrates his outspoken leadership both on and off the field. Written with award-winning sportswriter and author Dave Zirin, *Things that Make White People Uncomfortable* is a sports book for our turbulent times, a memoir, and a manifesto as hilarious and engaging as it is illuminating.

Gateway to Freedom Jul 25 2020 The dramatic story of fugitive slaves and the antislavery activists who defied the law to help them reach freedom. More than any other scholar, Eric Foner has influenced our understanding of America's history. Now, making brilliant use of extraordinary evidence, the Pulitzer Prize-winning historian once again reconfigures the national saga of American slavery and freedom. A deeply entrenched institution, slavery lived on legally and commercially even in the northern states that had abolished it after the American Revolution. Slaves could be found in the streets of New York well after abolition, traveling with owners doing business with the city's major banks, merchants, and manufacturers. New York was also home to the North's largest free black community, making it a magnet for fugitive slaves seeking refuge. Slave catchers and gangs of kidnappers roamed the city, seizing free blacks, often children, and sending them south to slavery. To protect fugitives and fight kidnappings, the city's free blacks worked with white abolitionists to organize the New York Vigilance Committee in 1835. In the 1840s vigilance committees proliferated throughout the North and began collaborating to dispatch fugitive slaves from the upper South, Washington, and Baltimore, through Philadelphia and New York, to Albany, Syracuse, and Canada. These networks of antislavery resistance, centered on New York City, became known as the underground railroad. Forced to operate in secrecy by hostile laws, courts, and politicians, the city's underground-railroad agents helped more than 3,000 fugitive slaves reach freedom between 1830 and 1860. Until now, their stories have remained largely unknown, their significance little understood. Building on fresh evidence—including a detailed record of slave escapes secretly kept by Sydney Howard Gay, one of the key organizers in New York—Foner elevates the underground railroad from folklore to sweeping history. The story is inspiring—full of

memorable characters making their first appearance on the historical stage—and significant—the controversy over fugitive slaves inflamed the sectional crisis of the 1850s. It eventually took a civil war to destroy American slavery, but here at last is the story of the courageous effort to fight slavery by "practical abolition," person by person, family by family. **The Half Has Never Been Told** May 23 2020 Winner of the 2015 Avery O. Craven Prize from the Organization of American Historians Winner of the 2015 Sidney Hillman Prize A groundbreaking history demonstrating that America's economic supremacy was built on the backs of slaves Americans tend to cast slavery as a pre-modern institution -- the nation's original sin, perhaps, but isolated in time and divorced from America's later success. But to do so robs the millions who suffered in bondage of their full legacy. As historian Edward E. Baptist reveals in *The Half Has Never Been Told*, the expansion of slavery in the first eight decades after American independence drove the evolution and modernization of the United States. In the span of a single lifetime, the South grew from a narrow coastal strip of worn-out tobacco plantations to a continental cotton empire, and the United States grew into a modern, industrial, and capitalist economy. Told through intimate slave narratives, plantation records, newspapers, and the words of politicians, entrepreneurs, and escaped slaves, *The Half Has Never Been Told* offers a radical new interpretation of American history.

A Crime So Monstrous Dec 10 2021 Two hundred years after Parliament passed the Abolition of the Slave Trade Act, over 27 million people worldwide languish in slavery, forced to work, under threat of violence, for no pay. In Africa, hundreds of thousands are considered chattel, while on the Indian subcontinent millions languish in generational debt bondage. Across the globe, women and children, sold for sex and labour, are already the second most lucrative commodity for organised crime. Through eviscerating narrative, *A Crime So Monstrous* paints a stark picture of modern slavery. Skinner infiltrates trafficking networks and slave sales on four continents, exposing a flesh trade never before portrayed with such vivid detail. From mega-harems in Khartoum to illicit brothels in Bucharest, from slave quarries in India to urban child

markets in Haiti, he lays bare a parallel universe where lives are bought, sold, used and discarded. The personal stories related here are heartbreaking but in the midst of tragedy Skinner also discovered a quiet dignity that leads some to resist and aspire to freedom. He bears witness for them and for the millions that are held in the shadows - all victims of what is the greatest human-rights challenge facing our generation.

AFROSURF May 03 2021 Discover the untold story of African surf culture in this glorious and colorful collection of profiles, essays, photographs, and illustrations. AFROSURF is the first book to capture and celebrate the surfing culture of Africa. This unprecedented collection is compiled by Mami Wata, a Cape Town surf company that fiercely believes in the power of African surf. Mami Wata brings together its co-founder Selema Masekela and some of Africa's finest photographers, thinkers, writers, and surfers to explore the unique culture of eighteen coastal countries, from Morocco to Somalia, Mozambique, South Africa, and beyond. Packed with over fifty essays, AFROSURF features surfer and skater profiles, thought pieces, poems, photos, illustrations, ephemera, recipes, and a mini comic, all wrapped in an astounding design that captures the diversity and character of Africa. A creative force of good in their continent, Mami Wata sources and manufactures all their wares in Africa and works with communities to strengthen local economies through surf tourism. With this mission in mind, Mami Wata is donating 100% of their proceeds to support two African surf therapy organizations, Waves for Change and Surfers Not Street Children.

Disposable People Oct 08 2021 Slavery is illegal throughout the world, yet more than twenty-seven million people are still trapped in one of history's oldest social institutions. Kevin Bales's disturbing story of slavery today reaches from brick kilns in Pakistan and brothels in Thailand to the offices of multinational corporations. His investigation of conditions in Mauritania, Brazil, Thailand, Pakistan, and India reveals the tragic emergence of a "new slavery," one intricately linked to the global economy. The new slaves are not a long-term investment as was true with older forms of slavery, explains Bales. Instead, they are cheap, require little care, and are disposable. Three interrelated factors have

helped create the new slavery. The enormous population explosion over the past three decades has flooded the world's labor markets with millions of impoverished, desperate people. The revolution of economic globalization and modernized agriculture has dispossessed poor farmers, making them and their families ready targets for enslavement. And rapid economic change in developing countries has bred corruption and violence, destroying social rules that might once have protected the most vulnerable individuals. Bales's vivid case studies present actual slaves, slaveholders, and public officials in well-drawn historical, geographical, and cultural contexts. He observes the complex economic relationships of modern slavery and is aware that liberation is a bitter victory for a child prostitute or a bonded miner if the result is starvation. Bales offers suggestions for combating the new slavery and provides examples of very positive results from organizations such as Anti-Slavery International, the Pastoral Land Commission in Brazil, and the Human Rights Commission in Pakistan. He also calls for researchers to follow the flow of raw materials and products from slave to marketplace in order to effectively target campaigns of "naming and shaming" corporations linked to slavery. *Disposable People* is the first book to point the way to abolishing slavery in today's global economy. All of the author's royalties from this book go to fund anti-slavery projects around the world.

Full Dissidence Feb 12 2022 A bold and impassioned meditation on injustice in our country that punctures the illusion of a postracial America and reveals it as a place where authoritarianism looms large. Whether the issues are protest, labor, patriotism, or class division, it is clear that professional sports are no longer simply fun and games. Rather, the industry is a hotbed of fractures and inequities that reflect and even drive some of the most divisive issues in our country. The nine provocative and deeply personal essays in *Full Dissidence* confront the dangerous narratives that are shaping the current dialogue in sports and mainstream culture. The book is a reflection on a culture where African Americans continue to navigate the sharp edges of whiteness—as citizens who are always at risk of being told, often directly from the White House,

to go back to where they came from. The topics Howard Bryant takes on include the player-owner relationship, the militarization of sports, the myth of integration, the erasure of black identity as a condition of success, and the kleptocracy that has forced America to ask itself if its beliefs of freedom and democracy are more than just words. In a time when authoritarianism is creeping into our lives and is being embraced in our politics, *Full Dissidence* will make us question the strength of the bonds we think we have with our fellow citizens, and it shows us why we must break from the malignant behaviors that have become normalized in everyday life.

Out of Bounds Jul 17 2022 When the weather outside starts cooling down, inside the dorm things are heating up. Can these college roommates fall in love without going out of bounds? Beaten and heartbroken, Jesse Cole is placed in a new dorm room after his last roommate attacked him. Just wanting to be left alone to heal in peace, he's shocked when tall, dark and dangerous-looking Nick Moretti walks in. Nick doesn't have time to tiptoe around his new roommate—he's too busy working in order to pay for school. But something about Jesse brings out his protective instincts. As their cautious friendship grows and becomes loaded with sexual tension, he wants to make Jesse comfortable. Enter the perfect plan: a line of tape down the center of the room. Boundaries established. But as innocent movie nights become hours-long temptation marathons, and whispered chats from across the room delve into straight-up dirty territory, crossing the line has never been so satisfying.

[A Legacy of African American Resistance and Activism Through Sport](#) Jul 05 2021 In recent years, there has been increased attention garnered toward activism in sport within the United States. In 2016, Colin Kaepernick's activist act of taking a knee during the national anthem before National Football League games sparked a nationwide debate on the intersection of sports, race, and politics. Kaepernick's actions were a part of a long lineage of activism in and through sport. Prior accounts of African American activism in and through sport have been limited in the following eight areas: (1) primarily focused on one type of activism (e.g.,

symbolic protests/boycotts); (2) a lack of differentiation between activism and borderline activist actions (e.g., agency, pioneering, and advocacy); (3) a lack of emphasis on hybrid resistance; (4) a focus on athletes and teams versus sportspersons (i.e., media, scholars, business leaders, and community members) and institutions (i.e., historically Black colleges and universities, athletic programs, and conferences) more broadly; (5) largely focused on one era of prominent athlete activism in the 1960s; (6) principally excluded and marginalized the importance of women's role in resistance efforts (e.g., activism for social change); (7) primarily focused on activism at the intercollegiate and professional levels with less attention toward youth and interscholastic levels; and (8) a lack of theoretically driven analyses of the resistance efforts exhibited by African American sportspersons, teams, groups, organizations, and institutions. Instead of exclusively using the term activism, the author uses the broader encompassing term of resistance as the focal framework for this text. Resistance is defined as intentional and/or unintentional actions by individuals, groups, organizations, and/or institutions that challenge oppressive systems and ideological hegemony. Using adaptive race- and ethnicity-centric typologies and interdisciplinary theories, this book offers a critical analysis of African Americans' intra- and inter-generational resistance actions where, when, why, and how sport has been utilized to express their humanity, preserve their cultural heritages, empower themselves and their communities, project political views, and pursue freedom, equality, and justice.

Up from Slavery Jun 16 2022 Delve into the turbulent roots of race relations in the United States with this inspirational account from Booker T. Washington, a one-time slave who became an important advocate for African-American education and founded several well-known institutions of higher learning, including the Tuskegee Institute in Alabama. *Up From Slavery* details Washington's life and outlines his sometimes-controversial views on education, social justice, and racial equality.

Islands of Slaves Jan 11 2022 This is third title in Thorkild Hansen's classic trilogy on the Atlantic slave trade, originally published in Danish in 1967; and the first major translation and publication of the work in

English. In Europe and North America, few are aware that the beautiful and now wealthy Virgin Islands of St Thomas, St Croix and St Jan were once Danish settlements and outposts of the slave trade. Moreover that the question of the independence of the islands was never seriously considered by the Danes, who instead sold them to the US in 1917 for 25 million dollars, several decades after the official end of slavery. This was against the will of the majority of the islanders, who were opposed to rule by the Americans, wary of their iniquitous treatment of blacks. In Denmark meanwhile, the popular view of national history presides that Denmark was the first of the imperial powers to abolish the slave trade. Thorkild Hansen's work breaks with these miss- representations of Denmark's role in the Atlantic slave trade. The third and biggest volume in the trilogy covers the period from the introduction of African slaves to the Danish islands, their official emancipation in 1848, subsequent sale to the Americans in the twentieth century, and reactions and resistance to these processes. Scrutinizing Denmark's moral obligation towards the islanders, the author draws extensively on primary sources, dramatizing and depicting real life characters into a moving and descriptive narrative. The introduction is provided by the historian A.V. Adams who states that ' Hansen's trilogy and Darko's scholarly initiative and competence in translating it contributes not only to Danes' re-reading of their own history, but also to West Indians' understanding of theirs... Hansen and Darko's contribution reaches beyond the Caribbean into the larger history of African-diaspora slave resistance... And inasmuch as the islands under consideration of the United States of America, this book through its translation becomes a text of US historiography...'

Bad Sports May 15 2022 A THOUGHT-PROVOKING LOOK AT THE BIG BUSINESS AND IMMORAL PRACTICES BEHIND PROFESSIONAL SPORTS BY ACCLAIMED SPORTSWRITER DAVE ZIRIN, HAILED AS THE "CONSCIENCE OF AMERICAN SPORTSWRITING" (THE WASHINGTON POST) The fastest-growing sector of today's sports audience is the alienated fan. Complaints abound: from inflated ticket prices, \$6 hot dogs, and \$9 beers to owners endlessly demanding new multimillion-dollar stadiums funded by public tax dollars. Those sitting in

the owners' boxes are increasingly placing profit over players' performances and fan loyalty. *Bad Sports* cuts through the hype and bombast to zero in on tales of abusive, dictatorial owners who move their teams thousands of miles away from their fan base, use their stadiums as religious and political platforms, or hold communities ransom for millions of dollars of taxpayer money to fund their gargantuan stadiums. As the multibillion-dollar sports-industrial complex continues to lumber along, Dave Zirin is the voice in the wilderness, speaking out for the common fan with a tough, passionate, and intelligent voice that will remind readers that there is more to sportswriting than glowing athlete profiles.

Slavery by Another Name Sep 07 2021 A Pulitzer Prize-winning history of the mistreatment of black Americans. In this 'precise and eloquent work' - as described in its Pulitzer Prize citation - Douglas A. Blackmon brings to light one of the most shameful chapters in American history - an 'Age of Neoslavery' that thrived in the aftermath of the Civil War through the dawn of World War II. Using a vast record of original documents and personal narratives, Blackmon unearths the lost stories of slaves and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude thereafter. By turns moving, sobering and shocking, this unprecedented account reveals these stories, the companies that profited the most from neoslavery, and the insidious legacy of racism that reverberates today.
