Let Macworld's Dan Frakes help you through the installation process, from the simple to the outrageously complex. It's easier than ever to install Lion, Apple's newest version of Mac OS X-you can purchase and download it directly from the Mac App Store and install it within the hour (assuming, of course, you've got a broadband Internet connection). If you'd like a little extra help, you might be interested in Macworld's Lion Installation Superguide, an in-depth instruction manual for the process.
