## **Lab Manual for Health**

**Assessment in Nursing** Nov

11 2019 Lab Manual for Health

Assessment in Nursing, 5e

serves as a laboratory manual

and a study guide for the

student. Each chapter of the

lab manual corresponds to a

chapter in the main textbook

assisting students with

comprehending and applying

the theoretical content.

Students will fully develop their

assessment skills using the new

interview guides and

assessment guides. Students

will also develop independence

and readiness for test-taking by

answering questions designed

to hone these skills. Critical

thinking skills are further

developed when students

participate in the Critical

Thinking and Case Study

activities.

your understanding of essential

examination and assessment

skills and further develop your

clinical judgement! As both a

comprehensive lab manual and

a practical workbook the Study

Guide & Laboratory Manual for

Physical Examination & Health

Assessment, 4th Canadian

Edition provides activities and

resources to enhance hands-on

learning of physical

examination skills. It features

reading assignments

corresponding to the text,

terminology reviews,

application activities, review

questions, clinical learning

objectives, documentation

sheets, and narrative summary

forms, with answers on the

companion Evolve website to

facilitate both learning and

review. Electronic health

record and evidence-informed

practice materials allow you to

further improve upon skills.

Consistent chapter format

includes the following sections:

Purpose, Reading Assignment,

Glossary, Study Guide, and

Review Questions including

clinical judgement. Core body

systems chapters also include a Skills Laboratory/Clinical Setting section, including Clinical Objectives, Instructions, and a regional Documentation sheet to be completed. Chapters correspond one-to-one with chapters in the textbook to provide essential review and guidance for clinical laboratory experiences. Critical thinking exercises included in many chapters offer suggested readings based on student participation in the skills lab and discussions with instructor. Audio-visual assignments with related Critical Thinking Questions tie the visual video demonstrations of specific examination procedures to

practical applications in the skills lab. Coverage of the electronic health record, charting, and narrative recording gives students examples of how to document assessment findings. Anatomy labelling exercises visually reinforce the identification of key anatomy and physiology. Study guide activities reinforce key assessment information through short-answer, fill-in-the-blank, and labelling exercises. Reading assignments correspond to the text chapters to foster integration of the text and laboratory manual. Documentation Sheets allow students and faculty to assess knowledge with forms used in the skills lab or clinical setting.

Current RN and PN competencies are reflected throughout to help students better prepare for licensure examinations. Review questions — short answer, matching, multiple choice — provide learning activities in a variety of approaches. Narrative Summary Forms reflect the charting format used for narrative accounts of the history and physical examination findings. Glossary promotes learning and understanding of essential terminology. Answer key on the companion Evolve website includes answers to all questions.
