Leaders play an essential role in every aspect of our modern lives and good leadership is an art that is highly prized.

Effective leaders not only control, appraise and analyse, they also encourage, improve and inspire. In *Effective Leadership* John Adair, Britain's foremost expert on leadership training, shows how every manager can learn to lead. Drawing on numerous examples of leadership in action – commercial, historical, military – he identifies the essential requirements for good leadership and explains how you can enhance your personality, knowledge and position to become the best leader you can be. Recognized as the ultimate tool for any aspiring leader, this landmark book will help you to:

- Understand leadership – the characteristics and skills you need to be an effective leader
- Develop leadership abilities – how to define tasks, plan, brief, communicate, motivate and set an example
- Grow as a leader – how to put your leadership skills into practice

SGN. The book *APS-Army Public School PGT Computer Science Exam* covers all sections of the exam. *FOCUS Exam Practice: Cambridge English Key for Schools* offers students intensive exam practice and support, and works alongside the *Students' Book*. Powered by *Practice Tests Plus*, it combines realistic exam practice with guidance and strategies for dealing with each exam paper. This is the only complete guide to wine education programs, classes, and scholarship. Those wishing to increase their understanding and appreciation of wine for personal enjoyment or social know-how, and those who desire to pursue or advance a professional career in the wine industry now confront a plethora of wine education options with a confusing array of titles, degrees, certificates, and specializations. Some wine education is free and short, while other programs can cost dearly in time and money. Some courses of study take a few hours and others a few years. Institutions offering wine education vary from state colleges and universities to non-profit organizations and many profit-seeking companies. Sommeliers require training that may be mostly useless to vintners. Someone who wants to deftly handle ordering wine in a restaurant probably doesn't want to learn about wine chemistry or Integrated Pest Management. Which program is right for you? What's the difference between an MS and an MW or an MS in viticulture? Is the education for a CWE the same as that for a WSET Diploma? Are some schools better for learning about wine journalism than the wine business? This book will help answer such questions. There are chapters on wine studies programs and credentials, including for sommeliers and those working in the wine trade; university viticulture and enology programs; wine business study programs; free online wine education courses; wine studies scholarships; and wine mentorship programs. Advance Praise for Leary's *Global Wineology*: "This groundbreaking book on wine education will be useful to business owners as well as wine enthusiasts. When I bought my wine business, I looked far and wide for guidance on classes or programs to strengthen my wine

knowledge. Nothing existed. It was an arduous task to figure out which course to take amongst the so many offered! Charlie Leary has now filled that gap. It will be useful to me not only in assessing candidates for employment, but also as a resource in training my staff. This guide is indispensable for anyone in the wine trade, writ large, and has lots of information of use to the general wine-drinking public who want to learn more." Sajive Jain, Owner of Bottle Barn, Sonoma, California

Additional practice test questions with rationales added to both entry level and advanced practice exams provide rationales and detailed explanation for every question on the exam.

Teaching and Learning Chinese in Higher Education deals with the current issues and challenges faced by teachers and learners of Chinese. Written by leading professionals and academics, the book is the first collection of research articles based on data collected in higher education institutions in the UK. The studies focus on concerns related to learners of Chinese as a foreign language (CFL) and aim to establish studies on teaching Chinese as a foreign language (TCFL) as part of the mainstream of applied linguistics. The contributors have applied their theoretical backgrounds in applied linguistics and education to tackle issues such as how to benchmark the Chinese written language with CEFR, how to integrate standardised Chinese proficiency tests with institutional assessments and teaching methodologies. Teaching and Learning Chinese in Higher Education will be invaluable to professionals,

academics and students seeking theoretical frameworks in applied linguistics for TCFL. Confident in learning. Confidence in life. Power Up is a brand new course from the bestselling author team of Caroline Nixon and Michael Tomlinson. It provides the perfect start to life's great adventure, creating 'future ready' learners who embrace life with confidence. Meet vibrant characters who students will love; foster collaboration through real-world missions; deepen learners' social and cognitive skills; explore embedded exam preparation; and expand the skill-set ensuring everyone reaches their full potential.
