In the following year the Royal Navys African Squadron was formed, its mission to stop and search ships at sea suspected of carrying slaves from Africa to the Americas and the Middle East. The British ship, the Royal Captain, belonging to the Honourable East India Company, struck a reef in the South China Seas in 1773 and sunk 350 metres beneath the surface. This publication follows the eminent underwater archaeologist, Franck Goddio, as he and his team find and excavate the unfortunate ship in her final resting place. New standards for underwater archaeology were set during this deep sea expedition, using the cutting edge technology of underwater exploration to reach the ship which was lying at such a depth in the sea. After the death of his half brother, Stefan, at the hands of Vlad Tsepesh--also known as Dracula--and after the destruction of his vampire father, Arkady, also at the hands of Vlad, Abraham van Helsing has traveled the world slaying many vampires. With every vampire he destroys, Bram becomes stronger and Vlad weaker, and soon Bram hopes he will be able to finally kill the fearsome vampire who has kept the Tsepesh family enslaved through a centuries-old blood ritual. But a desperate Vlad and his vampire great-niece, Zsuzanna, summon help from the most powerful, brutal, and beautiful vampire of all--Countess Elizabeth of Bathory. Bram learns of their plot to destroy him, and makes his own move to strike out at Vlad before Vlad can put him to death. He teams up with a courageous band of humans as he hunts Vlad--including Mina Harker and John Seward--and they finally succeed in killing the head of the Tsepesh clan, just as Bram Stoker foretold in Dracula. But the terror does not end with the death of Vlad, for there is another force that drives Vlad, Zsuzanna, Elizabeth and all the vampires, an ancient entity more evil than anything Bram has ever encountered: the Lord of the Vampires. And for Bram to defeat this dark lord, he must once again risk losing his very soul, to save not only his family, but humanity as well. In her final book in The Diaries of the Family Dracul trilogy, Jeanne Kalogridis brilliantly melds her own fascinating story of the Tsepesh family with that of Bram Stoker's classic, Dracula. Told in diary form like the first two books and Stoker's own chilling tale, LORD OF THE VAMPIRES reveals the dark, startling truths behind the original Dracula. Original. The intense rivalry in battleship building that took place between Britain and Germany in the run up to the First World War is seen by many as the most totemic of all armaments races. Blamed by numerous commentators during the inter-war years as a major cause of the Great War, it has become emblematic of all that is wrong with international competitions in military strength. Yet, despite this notoriety, 'the Great Naval Race' has not received the attention that this elevated status would merit and it has never been examined from the viewpoint of both of its participants simultaneously and equally. This volume, which contains a comprehensive survey of the existing scholarship on this topic, both English-language and German, as well as important primary source materials from a range of archives in both Britain and Germany, fills this gap. By putting the actions of the British Admiralty side-by-side with those of its German counterparts, it enables the naval race to be viewed comparatively and thereby facilitates an understanding of how the two parties to this conflict interacted. By offering a comprehensive range of German documents in both their original text and in English translation, the book makes the German role in this conflict accessible to an English speaking audience for the first time. As such, it is an essential volume for any serious student of naval policy in the pre-First World War era. Originally published as Lord of the Wolfyn.
