Villard Jan 31 2021 Henry Villard was one of the most remarkable and important figures to shape the tumultuous history of nineteenth-century America. A preeminent Civil War journalist, an industrialist, and a financial maverick, his courage, perseverance, and farsightedness made him the equal of such titans of his day as J.P. Morgan, John D. Rockefeller, and Andrew Carnegie. Penniless and not speaking a word of English, Villard emigrated in 1853 from Germany at the age of eighteen, leaving behind the privileges and expectations of his affluent, stifling parentage. Within five years of arriving on American soil, he had mastered the language and was covering the events of the day for the nation's top newspapers. Villard reported firsthand on the Lincoln-Douglas debates and later, from the front lines of the Civil War, filed graphic, hard-hitting reports that earned him the admiration of the newspaper community. His circle of acquaintances included President Lincoln, General Grant, and the famed abolitionist, William Lloyd Garrison, whose daughter he married. When the Civil War ended, Villard's penchant for risk-taking and adventure and his uncanny business acumen led him to become a restless innovator, breaking new ground in many areas. In journalism, he launched the first news syndicate in the United States; in the world of finance, he was a pioneer of venture capitalism and one of the first to employ the leveraged buyout. He catapulted himself into presidency of the Northern Pacific Railroad and shared with Thomas Edison the vision of an electrified nation. His investment in Edison's electrical enterprises eventually paved the way for Villard to mastermind the consolidation of what is now known as the General Electric Company. In 1883, triumphantly driving the last spike himself, he completed the nation's second transcontinental railroad. Later that year a financial panic nearly ruined him, but within a few years he made a phenomenal comeback based on his faith in

Edison and the future of electricity. Throughout his life, Villard's unfailing ability to impart his convictions to others, his talent for meeting the right people and gaining their confidence, enabled him to conquer adversity. Drawing on unpublished letters, Henry Villard's German and English memoirs, and many other sources, Alexandra Villard de Borchgrave's and John Cullen's fast-paced, absorbing biography vividly re-creates Villard's times and tells the rags-to-riches story of a German immigrant who made major contributions to his adopted homeland. [CIM Coursebook 04/05 Strategic Marketing in Practice](#) Jul 05 2021 Elsevier/Butterworth-Heinemann's 2004-2005 CIM Coursebook series offers you the complete package for exam success. Comprising fully updated Coursebook texts that are revised annually, and free online access to the MarketingOnline learning interface, it offers everything you need to study for your CIM qualification. Captive Audience Oct 16 2019 Ten years ago, the United States stood at the forefront of the Internet revolution. With some of the fastest speeds and lowest prices in the world for high-speed Internet access, the nation was poised to be the global leader in the new knowledge-based economy. Today that global competitive advantage has all but vanished because of a series of government decisions and resulting monopolies that have allowed dozens of countries, including Japan and South Korea, to pass us in both speed and price of broadband. This steady slide backward not only deprives consumers of vital services needed in a competitive employment and business market—it also threatens the economic future of the nation. This important book by leading telecommunications policy expert Susan Crawford explores why Americans are now paying much more but getting much less when it comes to high-speed Internet access. Using the 2011 merger between Comcast and NBC Universal as a lens, Crawford examines how we have created the biggest monopoly since the breakup of Standard Oil a century ago. In the clearest terms, this book explores how telecommunications monopolies have affected the daily lives of consumers and America's global economic standing.

Insurance contract law Mar 21 2020 This Consultation Paper is part of a wider review of insurance contract law, carried out by the Law Commission and Scottish Law Commission. It covers four topics: (1) Damages for late payment; (2) Insurers' remedies for fraudulent claims; (3) Insurable interest; (4) Policies and premiums in marine insurance. This paper follows a previous consultation paper in 2007 on Misrepresentation, Non-Disclosure and Breach of Warranty (LCCP 182; SLCDP 134, ISBN 9780117037823).

The Navy of the Nuclear Age, 1947-2007 Feb 24 2023 The Navy of the Nuclear Age, 1947-2007,

the fifth volume in the monumental U.S. Navy Warship series, presents an all-inclusive compendium of the ships that served in the U.S. Navy from the Cold War up through the present day. Featuring radical new developments in warships such as nuclear-powered submarines and carriers equipped with ballistic missiles, the post-World War II period was one of unprecedented technological growth for the U.S. Navy. The Navy of the Nuclear Age contains specifications and illustrations for all the ships and submarines that have helped the U.S. to achieve its present-day status as the country with the world's largest and most powerful navy. A further article about Paul Silverstone and the Navy Warships series can be found at:

Regulating eTechnologies in the European Union Aug 26 2020 The EU strategy 2020 includes ambitious plans for e-regulation that could improve Europe's competitiveness. However, the European states have very different legal frameworks in this field. This book introduces flagship initiatives and provides a detailed overview and analysis of the current standards and latest developments, offering practical insights and guidelines for practitioners and policy-makers alike. Further, as it discusses the

main areas of e-regulation, it can serve as a useful platform for university education in light of the growing need for new kinds of specialists, i.e. IT lawyers. The book concentrates on fields that are directly affected by e-regulation such as cyber-security, databases, computer programs, e-governance, IP and competition law and informatics.

Cyber Operations Mar 01 2021 Cyber

Operations walks you through all the processes to set up, defend, and attack computer networks. This book focuses on networks and real attacks, offers extensive coverage of offensive and defensive techniques, and is supported by a rich collection of exercises and resources. You'll learn how to configure your network from the ground up, starting by setting up your virtual test environment with basics like DNS and active directory, through common network services, and ending with complex web applications involving web servers and backend databases. Key defensive techniques are integrated throughout the exposition. You will develop situational awareness of your network and will build a complete defensive infrastructure—including log servers, network firewalls, web application firewalls, and intrusion detection systems. Of course, you cannot truly understand how to defend a network if you do not know how to attack it, so you will attack your test systems in a variety of ways beginning with elementary attacks against browsers and culminating with a case study of the compromise of a defended e-commerce site. The author, who has coached his university's cyber defense team three times to the finals of the National Collegiate Cyber Defense Competition, provides a practical, hands-on approach to cyber security.

The Sirens of Titan Jun 16 2022 “[Kurt Vonnegut's] best book . . . He dares not only ask the ultimate question about the meaning of life, but to answer it.”—Esquire Nominated as one of America's best-loved novels by PBS's The Great American Read *The Sirens of Titan* is an outrageous romp through space, time, and

morality. The richest, most depraved man on Earth, Malachi Constant, is offered a chance to take a space journey to distant worlds with a beautiful woman at his side. Of course there's a catch to the invitation—and a prophetic vision about the purpose of human life that only Vonnegut has the courage to tell. “Reading Vonnegut is addictive!”—Commonweal

Enterprise JavaBeans 3.0 Apr 14 2022 If you're up on the latest Java technologies, then you know that Enterprise JavaBeans (EJB) 3.0 is the hottest news in Java this year. In fact, EJB 3.0 is being hailed as the new standard of server-side business logic programming. And O'Reilly's award-winning book on EJB has been refreshed just in time to capitalize on the technology's latest rise in popularity. This fifth edition, written by Bill Burke and Richard Monson-Haefel, has been updated to capture the very latest need-to-know Java technologies in the same award-winning fashion that drove the success of the previous four strong-selling editions. Bill Burke, Chief Architect at JBoss, Inc., represents the company on the EJB 3.0 and Java EE 5 specification committees. Richard Monson-Haefel is one of the world's leading experts on Enterprise Java. Enterprise JavaBeans 3.0, 5th Edition is organized into two parts: the technical manuscript followed by the JBoss workbook. The technical manuscript explains what EJB is, how it works, and when to use it. The JBoss workbook provides step-by-step instructions for installing, configuring, and running the examples from the manuscript on the JBoss 4.0 Application Server. Although EJB makes application development much simpler, it's still a complex and ambitious technology that requires a great deal of time to study and master. But now, thanks to Enterprise JavaBeans 3.0, 5th Edition, you can overcome the complexities of EJBs and learn from hundreds of practical examples that are large enough to test key concepts but small enough to be taken apart and explained in the detail that you need. Now you can harness the complexity of EJB with just a single resource by your side.

Multi-agency Working in Criminal Justice

Apr 02 2021 A topical textbook for students of probation studies and criminal justice which is the first to cover key areas in multi-agency work for criminal justice practice.

Standard & Poor's Guide to Technology

Stocks Dec 30 2020 Standard and Poor's has been the leading brand in financial information and analysis around the world. Brokers, investment bankers, and other Wall Street professionals have relied upon S&P's unparalleled financial analysis for over 140 years. Their stock reports and ratings are among the most-respected in the industry. Now S&P's celebrated stock reports are collected for the top-rated stocks in the S&P 1500 composite index for each of today's five hottest stock sectors. Finance; Technology; Health Care, Pharmaceutical and Biotechnology; Energy; Communications and Telecom; The industries in these sectors include some of the fastest growing stocks around, and each of them include stocks assigned the prestigious 5-Star rating by S&P's top analysts. 65 percent of the 5-Star rankings allotted to stocks in S&P's 1500 composite index were assigned to stocks in one these 5 sectors! Included in each book are S&P's exclusive stock reports for the top-rated companies in each industry in the sector. Each book will also contain S&P analysts' valuable analysis of the sector as a whole and exclusive advice on how to evaluate stocks in each industry in the sector.

Principles of Water Resources Nov 09 2021 Proper management of water resources can take many forms, and requires the knowledge and expertise to work at the intersection of mathematics, geology, biology, geography, meteorology, political science, and even psychology. This book provides an essential foundation in water management and development concepts and practices, dissecting complex topics into short, understandable explanations that spark true interest in the field. Approaching the study of water resources systematically, the discussion begins with historical perspective before moving on to physical processes, engineering, water chemistry, government regulation, environmental issues, global conflict, and more. Now in its fourth edition, this text provides the most current introduction to a field that is

becoming ever more critical as climate change begins to threaten water supplies around the world. As geography, climate, population growth, and technology collide, effective resource management must include a comprehensive understanding of how these forces intermingle and come to life in the water so critical to us all.

Investment Valuation Dec 10 2021 Valuation is a topic that is extensively covered in business degree programs throughout the country. Damodaran's revisions to "Investment Valuation" are an addition to the needs of these programs. **Enterprise JavaBeans** Nov 21 2022 Enterprise JavaBeans, Fourth Edition, is the definitive guide to EJB 2.1. It shows you how to build complex, mission-critical systems using snap-together software components that model business objects and processes. EJB 2.1 makes several important steps forward in EJB technology: message-driven beans are much more flexible, a time service has been added, and EJBs have been integrated with web services. Enterprise JavaBeans delivers on a promise that was astonishing a few years ago: not only can EJBs run without modification on any operating system, they can run on any J2EE application server. However, after writing EJBs, you have to deploy them in an application server, and deploying EJBs can be a painful task. This edition includes the Jboss Workbook, which shows you how to deploy the examples on the open source JBoss Application Server. If you've done any enterprise software development in the past few years, you already know the extent to which EJB has changed the field. Use this book to catch up on the latest developments. If you're new to enterprise software development, or if you haven't been working with EJB, this book will bring you up to speed on this exciting technology for building business systems.

Strategic Marketing in Practice Nov 16 2019 Elsevier/Butterworth-Heinemann's 2004-2005 CIM Coursebook series offers you the complete package for exam success.
