In A Psalm for the Wild-Built, bestselling Becky Chambers's delightful new Monk and Robot series, gives us hope for the future. It's been centuries since the robots of Panga gained self-awareness and laid down their tools; centuries since they wandered, en masse, into the wilderness, never to be seen again; centuries since they faded into myth and urban legend. One day, the life of a tea monk is upended by the arrival of a robot, there to honor the old promise of checking in. The robot cannot go back until the question of "what do people need?" is answered. But the answer to that question depends on who you ask, and how. They're going to need to ask it a lot. Becky Chambers's new series asks: in a world where people have what they want, does having more matter? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. After a traumatic illness robs her of her looks, Rose Davenport has little expectation of making a good marriage—until her feckless father, Miles, unexpectedly brokers a dazzling match for her with the heir to the Earl of Stanhope. Unfortunately, the marriage doesn't live up to her hopes. Instead of the kindly bridegroom she's expecting, Rose

gets a sullen young husband who can barely stand to look at her. Gil Truman is in love with the beautiful Tilly when his father informs him that he must instead marry plain, sickly Rose. Forced to agree to the marriage to recover the family fortune his father lost to Miles Davenport in a game of cards, Gil is bitter and heartbroken. Their wretched wedding trip ends with him abandoning Rose at his remote Northumbrian estate, intending never to return. After five years of exile, Rose loses patience and travels to London to make a bid at seducing her errant, faithless husband. But their first encounter at a masked ball changes everything. When Rose learns the secret truth of how Gil was blackmailed into their marriage, her appetite for revenge dissolves. It's too late to turn back, though. Their night of passion has had consequences that force Rose to confront Gil again. Gil's discovery that the lovely, masked stranger he fell for is none other than his own wife, leaves him feeling sick and betrayed. As for Rose, she has deep wounds of her own from years of Gil's neglect. With such unpromising beginnings, can Rose and Gil make any kind of life together? Or are some wrongs too painful to ever be forgiven? Robert Chambers draws together and reviews the revolutionary changes in the methodologies and methods of development inquiry that have occurred and reflects on their transformative potential for the future. 'The best speculative fiction currently being written' John Connolly. \*THE SUNDAY TIMES BESTSELLER AND HUGO AWARD WINNER FOR BEST SERIES\* From the ground, we stand. From our ship, we live. By the stars, we hope. The incredible new novel by Becky Chambers, author of the beloved *The Long Way to a Small, Angry Planet*. #Spaceborn Few Centuries after the last humans left Earth, the Exodus Fleet is a living relic, a place many are from but few outsiders have seen. Humanity has finally been accepted into the galactic community, but while this has opened doors for many, those who have not yet left for alien cities fear that their carefully cultivated way of life is under threat. Tessa chose to stay home when her brother Ashby left for the stars, but has to question that decision when her position in the Fleet is threatened. Kip, a reluctant young apprentice, itches for change but doesn't know where to find it. Sawyer, a lost and lonely newcomer, is just looking for a place to belong. And when a disaster rocks this already fragile community, those Exodans who still call the Fleet their home can no longer avoid the inescapable question: What is the purpose of a ship that has reached its destination? An abandoned baby girl, a secret, the story of survival - Penny Vincenzi's SHEER ABANDON is the story of one desperate act, and the consequences that follow... 'Like a glass of champagne: bubbly, moreish and you don't want it to end' Daily Express Perfect for readers of Elizabeth Buchan, Jilly Cooper or Santa Montefiore One night in 1986 an abandoned baby girl is found in a cupboard at Heathrow airport. A year earlier Martha, Clio and Jocasta had met by chance, at the start of a backpacking adventure: they travelled together briefly and then went their own ways, swearing to meet again when they return home. But it would be a long time until they met again: not until Kate, the foundling, is a teenager, and all three are leading successful lives. Martha is a single, highly paid lawyer, Clio a doctor, locked in an unhappy marriage, and Jocasta a reporter, in love with a charming commitment-phobe. Which of them is Kate's mother? Why was she desperate enough to do such a thing, and how did she survive it? The crack cocaine years: from deviant globalization to the 'get money' culture of late twentieth-century America. Beautician to Vigilante Teasy Sanders patrolled the streets at night wearing her lime green F. U. tee shirt from Flatiron University where she wished she could have attended. Like so many people in her neighborhood she's tired of the criminals like the Gray Wolf gang who'd taken over. Gangs had killed her family and friends and she wanted her neighborhood back. She had the tools to put an end to the criminal activity, but the air pollution in the city was getting worse by the minute. And Teasy and her new gang may have found an answer to that. The Civil Rights Act had once

more been amended, and now included all life forms: humans, werewolves, vampires, and the most hideous, zombies. And suddenly the world was full of them. But could they save the world before everyone choked to death on the pollution? Peggy Chambers delivers a fun romp through a world where fantasy becomes reality and the answer to the world's problems could be sitting in an abandoned subway tunnel just waiting to be discovered. This book is intended for all who are committed to human wellbeing and who want to make our world fairer, safer and more fulfilling for everyone, especially those who are 'last'. It argues that to do better we need to know better. It provides evidence that what we believe we know in international development is often distorted or unbalanced by errors, myths, biases and blind spots. Undue weight has been attached to standardised methodologies such as randomized control trials, systematic reviews, and competitive bidding: these are shown to have huge transaction costs which are rarely if ever recognized in their enormity. Robert Chambers contrasts a Newtonian paradigm in which the world is seen and understood as controllable with a paradigm of complexity which recognizes that the real world of social processes and power relations is messy and unpredictable. To confront the challenges of complex and emergent realities requires a revolutionary new professionalism. This is underpinned by a new combination of canons of rigour expressed through eclectic methodological pluralism and participatory approaches which reverse and transform power relations. Promising developments include rapid innovations in participatory ICTs, participatory statistics, and the Reality Check Approach with its up-to-date and rigorously grounded insights. Fundamental to the new professionalism, in every country and context, are reflexivity, facilitation, groundtruthing, and personal mindsets, behaviour, attitudes, empathy and love. Robert Chambers surveys the past world of international development, and his own past views, with an honest and critical eye, and then launches into the world of complexity with a buoyant enthusiasm. He draws on almost six decades of experience in varied roles in Africa, South Asia and elsewhere as practitioner, trainer, manager, teacher, evaluator and field researcher, also working in UNHCR and the Ford Foundation. He is a Research Associate and Emeritus Professor at the Institute of Development Studies, University of Sussex, his base for many years. *Can We Know Better?* is essential reading for researchers and students of development, for policy makers and evaluators, and for all those working towards the better world of the Sustainable Development Goals. Originally published as *If Ye Shall Ask*, this small book on prayer comprises lectures Chambers gave at the Bible Training College in London where he focused on all aspects of prayer, from prayer's simplicity to intercessory prayer for others. He believed that prayer changes the one praying as much as prayer moves the hand of God. The foreword introduces readers to a simple man of keen insight who, regardless of who he was with or what they were doing, without warning would say, Off with your hats, it is good to pray everywhere, followed by a brief prayer.

Chambers was a spiritual realist who believed prayer enabled God to perform His order through those who pray, even though he didn't consider prayer a natural function of the worldly minded. However, he knew prayer was a way of getting to know God that would develop the life of God in those who prayed. This powerful book on prayer, filled with wisdom and keen perception, is one to savor slowly and return to time and time again. Written by a devout man of God who shows us what we are missing when we don't have the life of God in us. There aren't enough stars to value its worth, whether five, ten, fifty or a hundred. Cited from review by Gail Welborn, Seattle Christian Book Review Examiner. The life story of the author of *My utmost* for his highest. Despite London's gleaming surface, the city has another side, one of secrets, dilapidation, and mystery. Wander through disused Underground stations; ornate Victorian sewers and waterworks; crumbling but beautiful Art Deco cinemas and empty swimming pools; bombed-out churches and eerie docklands; and ruined mansions and overgrown cemeteries, all haunting relics from a time gone by. Arranged thematically from transport and industry to residential and recreational, these entries cover both the modern city and the historical metropolis. Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures

demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself. Among Christian devotional works, *My Utmost for His Highest* stands head and shoulders above the rest, with more than 13 million copies sold. But most readers have no idea that Oswald Chambers's most famous work was not published until ten years after his death. The remarkable person behind its compilation and publication was his wife, Biddy. And her story of living her utmost for God's highest is one without parallel. Bestselling novelist Michelle Ule brings Biddy's story to life as she traces her upbringing in Victorian England to her experiences in a WWI YMCA camp in Egypt. Readers will marvel at this young woman's strength as she returns to post-war Britain a destitute widow with a toddler in tow. Refusing personal payment, Biddy proceeds to publish not just *My Utmost for His Highest*, but also 29 other books with her husband's name on the covers. All the while she raises a child alone, provides hospitality to a never-ending stream of visitors and missionaries, and nearly loses everything in the London Blitz during WWII. The inspiring story of a devoted woman ahead of her times will quickly become a favorite of those who love true stories of overcoming incredible odds, making a life out of nothing, and serving God's kingdom. In *Oswald Chambers: Abandoned to God*, you trace the life of this servant of God from his boyhood home in Scotland through an astounding journey of faith and trust in God's provision. From the United Kingdom, the United States, Japan, and ultimately to a YMCA training camp in Egypt during World War I, you'll find Chambers to be a man utterly devoted to God, His Word, and to sharing the timeless wisdom of the Bible with others. The last six years of his life

were spent as principal of the Bible Training College in London and as chaplain to British Commonwealth troops in Egypt during World War I. After Chambers died, at age 43 in 1917, the books that bear his name were compiled by his wife from her own verbatim shorthand notes of his talks. Chambers never lived to see the book for which he is best known, *My Utmost for His Highest*, published. He left a spiritual legacy that has touched men, women, politicians, and preachers ever since. Now you can read about this remarkable life well-lived and find inspiration to persevere for the sake of Christ. **THE RIGHT BLEND OF ACTION, EMOTION, AND EDGE...** "Dashofy takes small town politics and long simmering feuds, adds colorful characters, and brings it to a boil in a welcome new series." - Hallie Ephron, Author of *There Was an Old Woman*

The Castle of Wolfenbach (1793) is the most famous novel written by the English Gothic novelist Eliza Parsons. First published in two volumes during 1793, it was one of the seven "horrid novels" recommended by the character Isabella Thorpe to Catherine Morland in Jane Austens novel Northanger Abbey and was an important early work in the genre, predating both Ann Radcliffes The Mysteries of Udolpho and Monk Lewiss The Monk. What do you know about the man behind the popular devotional My Utmost for His Highest? Discover a remarkable story, and find inspiration for your walk with Christ. Oswald Chambers' writings are filled with thoughts on faith because his life was filled with faith. 'A must-read for psychotherapists, doctors and everyone else who enjoys connecting ideas' Philippa Perry 'Compassionate and challenging, warmly human and coolly rigorous. . . I am now thinking afresh about how I live in my own body, in a world where, as Clare Chambers argues, nobody's body is ever allowed to be good enough, just as it is' Timandra Harkness What would it take for your body to be good enough? The pressure to change our bodies is overwhelming. We strive to defy ageing, build our biceps, cure our disabilities, conceal our quirks. Surrounded by filtered photos and surgically-enhanced features, we must contort our physical selves to prejudiced standards of beauty. Perfection is impossible, and even an acceptable body seems out of reach. In this mind-expanding book, Cambridge philosopher Clare Chambers argues that the unmodified body is a key political principle. While defending our right to change our bodies, she argues that the social pressures to modify undermine equality. She

shows how the connected ideas of the natural body, the normal body, and the whole body have been used both to disrupt and to maintain social hierarchies - sometimes oppressing, other times liberating. The body becomes a site of political importance: a place where hierarchies of sex, gender, race, disability, age, and class are reinforced. Through a thought-provoking analysis of the power dynamics that structure our society, and with examples ranging widely from bodybuilding to breast implants, deafness to male circumcision, Intact stresses that we must break away from the oppressive forces that demand we alter our bodies. Instead, it offers a bold, transformative vision of the human body that is equal without expectation. The definitive biography of one of Britain's greatest ever Olympians For the vast majority of Americans, patriotism is in again. Since the events of September 11, 2001, more people are showing their love for the United States-by flying the flag, supporting the troops and saying God bless America-than we've seen in many years. But the possibility of further terrorist attacks, economic disruptions, and worldwide war unsettles many people. Author Jim Reimann says one thing-trust in God-will dispel such fears and make life in a dangerous world livable. As Reimann says in his preface, This book is a reminder that when patriotism and the promises of men and nations are not enough, god promises to protect us from the pestilence and plague if we acknowledge His name and call upon Him. The time has come for us to stand on that promise-to call upon God daily-to spend time in His presence and His truth-and then to listen to Him speaking to us through His Word, as we sit quietly before Him. #1 New York Times bestseller for 13 consecutive weeks! "As long as humanity speaks of virtue and dreams of freedom, the life and writings of Whittaker Chambers will ennoble and inspire." - PRESIDENT RONALD REAGAN "One of the dozen or so indispensable books of the century..." - GEORGE F. WILL "Witness changed my worldview, my philosophical perceptions, and, without

exaggeration, my life." - ROBERT D. NOVAK, from his Foreward "Chambers has written one of the really significant American autobiographies. When some future Plutarch writes his American Live, he will find in Chambers penetrating and terrible insights into America in the early twentieth century." - ARTHUR SCHLESINGER JR. "Chambers had a gift for language....to call Chambers an activist or Witness a political event is to say Dostoevsky was a criminologist or Crime and Punishment a morality tract." - WASHINGTON POST "Chambers was not just the witness against Alger Hiss, but was also one of th articulators of the modern conservative philosophy, a philosophy that has something to do with restoring the spiritual values of politics." - SAM TANENHAUS, author of Whittaker Chambers "One of the few indispensable autobiographies ever written by an American - and one of the best written, too." - HILTON KRAMER, The New Criterion First published in 1952, Witness is the true story of Soviet spies in America and the trial that captivated a nation. Part literary effort, part philosophical treatise, this intriguing autobiography recounts the famous Alger Hiss case and reveals much more. Chambers' worldview and his belief that "man without mysticism is a monster" went on to help make political conservatism a national force. Regnery History's Cold War Classics edition is the most comprehensive version of Witness ever published, featuring forewords collected from all previous editions, including discussions from luminaries William F. Buckley Jr., Robert D. Novak, Milton Hindus, and Alfred S. Regnery. Abandoned Breaths is the debut poetic collection from Alfa. Between these pages she has gathered the warehouses of the unsaid, and weaved together the voices that have remained silent in our heartbroken hotels. All the abandoned breaths that we hold on to after serving time in heart warfare never really go away. They cling to dusty shelves, tucked into darken chambers among past wreckage; longing to be given life. She has cleaned house and opened musty windows, letting pulsing words breathe and transform into poetic release. The focus of these writings is to give the heart and soul permission to ache after love and loss. The author is unapologetic about her realistic take on heartache and grieving. She touches on the past, trying to make sense of her experiences, to move forward. This book is filled with timeless and vintage feeling poetry. It will touch every individual heart that reads it, no matter the age group.
