Landscape Architecture Documentation Standards Sep 07 2021 **SUPERB EXECUTION RELIES UPON RIGOROUS PROJECT DOCUMENTATION** **A project will only be built as well as it is documented. This publication focuses on the key documentation needs of the landscape architectural design and construction documentation process. That includes both "design documentation" and "construction documentation" as well as all that which occurs in the transition from one phase to the other. Documentation requirements include those components necessary to explore and define design intent, logic, physical proposals, and ultimately, the specific components included within construction and bid documents. Discover how proper documentation facilitates every stage of the design process from pre-planning to construction, and leads to a highly resolved built outcome. Understand the principles behind these documentation practices. Implement best practices specific to each documentation phase and drawing, from title block and cover sheet design to soil plans and plant protection. Organize keynoting systems, cross-referencing and interdisciplinary coordination amongst multiple consultants and vendors. Study sample project documents from a leading landscape architecture firm to better understand the elements and benefits of complete and well-coordinated project documentation. These standards have been time-tested by over 150 designers at the industry leading landscape architecture firm Design Workshop, reflecting a range of project types, including parks, streetscapes, urban spaces and over-structure construction. This guide shares the methods behind the success, to facilitate exceptional built outcomes through principled documentation practices.**

Cataloging with AACR2 and MARC21 Oct 28 2020 Recent changes in both cataloging rules (AACR2) and MARC coding standards (MARC21) mean that for catalogers to create or edit records effectively, they need new up-to-date guidance. In a unique one-stop guide, cataloging expert Fritz provides the hands-on cross-references between AACR2 and MARC21 required for easy online cataloging. The 2006 Cumulation brings the second edition up-to-date with the inclusion of the 2004, 2005, and 2006 updates. Designed to streamline the process and avoid errors, the book is organized in order of MARC tags. Following this step-by-step guide, users can: Identify the rules that govern each MARC field Match resources to records Edit records Create new records easily Clone records for different editions Make individual MARC records "play well" with others in the database. Beginning catalogers can use this guide to create simple records while experienced catalogers will be able to identify specific rules. Fritz also helps copy catalogers pick better matching records, and systems librarians understand the content of records at the core of their collections. Providing clear, practical, easy-to-use guidance, this authoritative reference is the premier resource for students and instructors as a basis for creating and editing consistently good MARC records. Available in loose-leaf format to fit in a standard 3-ring binder.
