A maintenance & repair manual for the DIY mechanic. Born in England, Frances Hodgson Burnett emigrated to Knoxville, Tennessee with her family at the age of 16. Faced with financial hardship, she began to write fiction and non-fiction pieces as a means of making money. Eventually, she emerged as a popular writer of children's literature, penning such classics as *The Secret Garden*, *A Little Princess*, and *Little Lord Fauntleroy*. "Lodusky," a short story set in the American South, will please fans of Burnett's work. An exploration of current and possible future hydrogen storage technologies, written from an industrial perspective. The book describes the fundamentals, taking into consideration environmental, economic and safety aspects, as well as presenting infrastructure requirements, with a special focus on hydrogen applications in production, transportation, military, stationary and mobile storage. A comparison of the different storage technologies is also included, ranging from storage of pure hydrogen in different states, via chemical storage right up to new materials already under development. Throughout, emphasis is placed on those technologies with the potential for commercialization.
